**COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE AND REQUEST  
FOR SUPPLEMENTAL NOTICE OF ALLOWABILITY**

Applicants have noted that the SB08 form that accompanied the Information Disclosure Statement filed April 13, 2004 has not been initialed and returned by the Examiner. During a telephone conference on June 21, 2006, Examiner Tang informed the undersigned that the SB08 form was not present in the USPTO's electronic file (although it was referenced as being received on the date-stamped application transmittal). The undersigned has now faxed a copy of the as-filed SB08 form to Examiner Tang for consideration. Applicants hereby request the issuance of a Supplemental Notice of Allowability listing the re-submission of the as-filed SB08 form along with an initialed copy of the SB08 form.

The Examiner's statement of reasons for allowance includes an inconsistency concerning its mention of the substance of each independent claim. In particular, the statement mentions that each "independent claim identifies the uniquely distinct features "a plurality of individual elongated light transmitting portions..." and "a light display try-me switch..." In fact, only

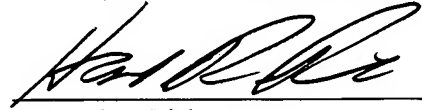

independent claims 1, 10, and 27 include the plurality of individual elongated light transmitting portions, and only independent claims 1, 17, 21, 27, and 30 include the light/visual display try-me switch. Applicants respectfully request that the filewrapper reflect this factual correction to the Examiner's statement of reasons for allowance.

Dated: June 21, 2006
